React • Typescript • JavaScript • React Native • Redux • Redux-toolkit • Zustand • Effector • Docker • CSS • SCSS • Tailwind • HTML5 • Framer-Motion •
Webpack • Vite • Next.js • Java/ Spring • OOP • Git • UML

Soft skills: responsibility • diligence • time management • communication • teamwork • attention to details • creativity • problem-solving

Languages: English (Intermediate, B1) • German (Elementary, A2)

Experience

Fawesome Games
Frontend Developer

Belarus, Minsk
08/2023 - Present

- Currently working in a team to build the complete frontend infrastructure for a web-based game account platform. This includes designing and developing web interfaces and pages that support user account management, game data visualization, and interactive features for players.
- Built a landing page for a platform aimed at architects and interior designers. The platform allows users to upload drawings, attach files, and describe objects on sketches. Also worked on the user onboarding tutorial, UI hints, and other logic components of the platform.
- Developed a React Native application with features for selecting workouts, viewing instructions, and tracking workout stats, and worked on another React Native app that transforms users' voices with various effects.

Summary

I'm a frontend react developer. My expertise includes project design and user interfaces development and implementation features into projects on a different stages of development process. I can and enjoy generating new ideas and devising feasible solutions to broadly relevant problems.

Courses & Certificates

English school "EnglishPapa" — Intermediate level (B1) of English (September 2022 - February 2023)
