Languages: • English (Upper Intermediate, B2) • German (Elementary, A2)

Experience

Fawesome Games

Belarus, Minsk

Frontend Developer

08/2023-2024

- Currently working in a team to build the complete frontend infrastructure for a web-based game account platform. This includes designing and developing web interfaces and pages that support user account management, game data visualization, and interactive features for players. **Tech stack:** React, TypeScript, TanStack Query, Zustand, Tailwind CSS, Vite, FSD
- Built a landing page for a platform aimed at architects and interior designers. The platform allows users to upload drawings, attach files, and describe objects in sketches. Also worked on the user onboarding tutorial, UI hints, and other logic components of the platform. **Tech stack:** React, TypeScript, Effector, SCSS, Webpack
- Developed a React Native application with features for selecting workouts, viewing instructions, and tracking workout stats, and worked on another React Native app that transforms users' voices with various effects. **Tech stack:** React Native, TypeScript, Redux, Redux Toolkit, Styled-components
- Designed and developed my personal portfolio website from scratch. Focused on a clean and fast user experience to present my resume. The site is fully responsive and built with attention to detail and performance. **Tech stack:** React, Tailwind CSS, Vite, Framer Motion.
